## Proposal Text

### ***Risk Parameter Changes for FEI***

#### ***Simple Summary***

A proposal to adjust risk parameters for FEI as follows:

- Pause FEI borrowing.
- Set reserve factor to 99%.

#### ***Background***

Details are provided in the governance forum posts regarding [FEI](#).

#### ***Motivation***

In light of Tribe DAO's proposal to enter a terminal state, the FEI market on Compound should be deprecated. Pausing FEI borrowing and setting a high reserve factor is the first step in winding down the FEI market.

#### ***Specification***

- Sets the cFEI reserve factor to 99% by calling `_setReserveFactor` on the cFEI contract
- Pauses borrowing on cFEI by calling `_setBorrowPaused` on the `Comptroller` contract, passing the cFEI address and true
