Proposal Text

> ### *Lower Proposal Threshold to 65,000 COMP*
>
> *Governance Bravo presents the ability to update governance parameters. Here, we alter the amount of COMP needed by a CAP or COMP address to push a governance proposal to a vote.*
>
> *While this 65k threshold only enables 1 additional EOA to propose, it makes the CAP process considerably easier to navigate for community contributors. Over time, this threshold may be reduced further, but this is a conservative & meaningful step in the right direction.*
